# PROGRAM HELPS AND INFORMATION JANUARY - FEBRUARY 2010

Marge Bernhardt, State Lecturer 424 Cedar Lane, Cheshire, CT 06410 Phone: (203) 272-4620 e-mail: <u>mbcb76@cox.net</u>

Happy New Year...

Thank you to everyone who has sent cards and e-mails to Carl these last few weeks. Until you have been in this position you don't realize just how important they are. The cards become your link to the outside world and you look forward to the mailman coming each day. For those who are unaware, Carl had a heart attack followed by quintuple by-pass surgery. He is doing well at this point and allowed to go out using common sense as to when and where. Hopefully it won't be too long before we can resume our visitations.

I will be at Leader's Conference in Vermont next week and should get more information on Lecturer's Conference. All I can tell you for sure at this point is that it will be somewhere in Vermont. Full details will be in the next newsletter and be sure and watch the CT Granger. As usual I will need help with the program.

At this point I would like to clear the air on a few points. Since State Session I have been asked several questions and received complaints about a few things. It is a new calendar year, so let's see if we can get off to a good start and address these issues. First, if you receive an invitation to neighbor with another Grange please reply. Most Lecturers include their phone number so you can call. If you don't answer the other Grange has no way of knowing how many refreshments they need or if they need to arrange for more seating. We all love visitors. This is the next complaint. I am hearing that not only do Granges not answer, but they never go anywhere. Then they expect you to come to their Grange when they invite you. No one expects you to go out in bad weather, but when the weather is nice let's all get out and visit with our neighbors.

I have been asked how long a program should be. For years we have been told it should last between 30 and 60 minutes except on special occasions. This has not changed. A reading and a song do not constitute a program. I know of several Granges who take their whole programs out of this newsletter. This is fine as long as it is varied and contains something for everyone. But, it would be nice if you could come up with something new and then send it in to share with others. I have been asked about required numbers in the program. The main requirement is that it be of interest to your members. Some Granges love to have speakers and get extra people to turn out. In other Granges people stay away when a speaker is scheduled. You know your Grange. Please do what is best for them.

Here's hoping you have a happy, healthy and safe New Year. And, don't forget to call, e-mail or write if you need help. That is what I am here for. ....Marge

## SHARED NUMBERS...

#### DEDICATION OF THE FIRST GRANGE HALL IN CONNECTICUT From The Grange in Connecticut by Lida Skilton Ives

Lebanon Grange #21 was organized on March 31, 1884, with 25 Charter Members, by National Deputy Sherman Kimberly of West Torrington. Early in August of that same year, the Grange voted to build a hall and store, \$1,725.00 being pledged for the purpose. A company was immediately formed, a building committee selected, and the hall was ready for dedication on November 12, 1885. National Deputy Sherman Kimberly accompanied by National Lecturer Whitehead, took the train from Torrington to attend this occasion. In Deputy Kimberly's family diary, he says he little knew what to do upon such an event, but that he somehow got through with it before a crowd of some 500 good people. In the book, The Connecticut Granges, we find, "the dedication exercises, which seemed to have fitted the necessary requirements for such a celebration. The fact that a Hall was built so shortly after its organization, in fact before the first Annual Session of the newly formed State Grange, is testimony to the zeal and ardor of the people who were responsible for its growth in years to come.

#### SOMETHING TO THINK ABOUT With Thanks to Joan Perry

(These make great cut-aparts)

If 4 out of 5 people <u>SUFFER</u> from diarrhea.... does that mean that one out of five enjoys it?

Why do croutons come in airtight packages? Aren't they just stale bread to begin with?

If people from Poland are called Poles, then why aren't people from Holland called Holes?

If it's true that we are here to help others, then what exactly are the others here for?

What hair color do they put on the driver's licenses of bald men?

I thought about how mothers feed their babies with tiny little spoons and forks, so I wondered what do Chinese mothers use? Toothpicks?

Why do they put pictures of criminals up in the Post Office? What are we supposed to do, write to them? Why don't they just put their pictures on the postage stamps so the mailmen can look for them while they deliver the mail?

As income tax time approaches, did you ever notice...When you put the two words 'The' and 'IRS' together, it spells...... **'THEIRS'?** 

**THE BREADS OF LIFE...A PROGRAM OF REMEMBRANCE with Thanks to No. Central** This is a three page program I saw at the 50<sup>th</sup> Anniversary of North Central Pomona. It is too long to include here, but I am more than willing to either mail or e-mail it to anyone who wants to use it. It is suggested for a memorial program when your Grange did not lose any members in death during the year or it might be part of a tribute to the idea of community and everyone as part of the community family. It could also be used at Eastertime when we think of Christ as our sustenance, our "Bread of Life".

#### LIFE with Thanks to Simsbury Grange

A star above, a moon aglow, An April rain, December snow, A bursting bud, a rose in bloom, A breading dawn, a harvest moon...

A happy smile, perhaps a tear, The longest mile, the shortest year, A butterfly, a bird in flight, A happy day, a lonely night...

A cotton cloud, a sky of blue, A gentle touch, a dream come true, To reach success, and know we're blessed It's all of these that make life the best. Garnett Ann Schultz

#### **RECIPE FOR A HOME with Thanks to Senexet**

Find a cup of friendship Add a cup of thoughtfulness Creamed together with a pinch Of powdered tenderness

Very lightly beaten In a bowl of loyalty With a cup of faith and one of hope And one of charity. Be sure to add a spoonful each Of gaiety that sings And also the ability That laughs at little things

Moisten with sudden tears Of heart-felt sympathy Bake in a good natured pan And serve repeatedly.

## **Keeping Your Home Safe And Warm**

Follow these safety tips from CDC, the National Fire Protection Association, and the U.S. Consumer Product Safety Commission to prevent injuries and deaths related to heating your home.

- Install a smoke alarm near bedrooms and on each floor of your home. Test it monthly. If it has a 9-volt battery, change the battery once a year.
- Install a carbon monoxide (CO) alarm near bedrooms and on each floor of your home. If your alarm sounds, the U.S. Consumer Product Safety Commission suggests that you press the reset button, call emergency services (911 or your local fire department), and immediately move to fresh air (either outdoors or near an open door or window). Know the symptoms of CO poisoning: headache, fatigue, dizziness, and shortness of breath. If you experience any of these symptoms, get fresh air right away and contact a doctor for proper diagnosis.
- Make sure heating equipment is installed properly. Have a trained specialist inspect and tune up your heating system each year.
- Keep portable space heaters at least 3 feet from anything that can burn, including bedding, furniture, and clothing. Never drape clothing over a space heater to dry.
- Keep children and pets away from space heaters. Never leave children in a room alone when a space heater is in use.
- Have your fireplace chimney and flue inspected each year and cleaned if needed. Open the flue and use a sturdy fireplace screen when you have a fire. Burn only untreated wood; never burn paper or pine branches--pieces can float out the chimney and ignite your roof, a neighbor's roof, or nearby trees.
- If you use a wood-burning stove, have the chimney connection and flue checked each year. Make sure the stove is placed on an approved stove board to protect the floor from heat and coals.
- Never use your range or oven to heat your home, even for a short time.
